

TéVera Premium Fully Automatic Coffee Machine - JAC-38A

Quick Overview

- **Dual Bean Grinding**
  Two bean hoppers, two grinders. Lockable and independent, they let you offer different coffee beans and build a more flexible drink menu.
- **Milk System**
  The milk system supports lattes, cappuccinos, and iced milk coffees. The optional MCC-10L milk cooler helps maintain milk at 0 to +5Â ° C.
- **One Click Two Cups**
  Brew two cups of coffee simultaneously, perfect for back-to-back orders during peak hours.
- **Automatic Cleaning**
  Less scrubbing. More serving. Automated rinse, milk circuit cleaning, and sanitation cycles reduce daily manual work and help maintain hygiene.
- **Smart Operation Ready**
  Optional Wi-Fi/4G, QR and MDB payment, plus SaaS management support, ready for modern connected cafÃ©s and businesses.
- **Adjustable Spout**
  Spout height adjusts from 80mm to 180mm, compatible with everything from espresso cups to tall takeaway mugs.
- **Hot Water Spout & Steam Wand**
  Separate hot water spout for cup warming and tea, plus a steam wand for manual milk texturing, giving your barista full creative control.
- **Lockable Hoppers & Canisters**
  Lockable hoppers and canisters let you display your beans while keeping ingredients safe and controlled.
- **Instant Canister:** 2L x 2
- **Bean Hopper:** 1200g x 2

Description

TéVera Premium Fully Automatic Coffee Machine - JAC-38A

The JAC-38A is a premium fully automatic coffee machine designed to deliver a wide café-style beverage menu with minimal manual input. With dual bean hoppers, dual grinders, a 10.1-inch touchscreen, fresh milk system, instant canisters, hot water spout, steam wand, and automatic cleaning, it supports consistent drink preparation across busy service environments.

Ideal for offices, hotels, convenience stores, self-service beverage stations, cafés, QSR venues, and high-traffic commercial environments, the JAC-38A is built for flexible menu creation and efficient daily operation. Optional syrup station, QR/MDB payment, Wi-Fi/4G connection, SaaS management, and up to 200 cups per day output make it well suited to both staffed and unattended beverage programs.
