Ingersoll Rand®

IQ^{V12} Series™ Belt Sander

G1811

REAL TOOLS FOR REAL WORK™

Sand Smarter. Not Harder.

Ingersoll Rand G1811 IQ^{V12} Series™ Belt Sander

Introducing the Ingersoll Rand IQ^{V12} Series G1811 Belt Sander—the first ever 12V cordless belt sander made specifically for the automotive industry. With a 3/8″ X 13″ narrow-width belt, an 8-position adjustable belt arm and zero hoses, the G1811 is built for access and precision sanding. A variable speed lever adds control and a quick change lock and release allows you to switch belts as the job demands. But it's more than agile. This 2 lb. tight-space-navigator offers an impact- and chemical-resistant housing to make sure it holds up to being dropped and pushed to the places it needs to go.

ACCESSIBILITY

Take precision sanding to a whole new level. This hose-free sander with 3/8″ X 13″ narrow-width belts and an 8-position adjustable belt arm gets in and around a car or truck's tightest spots. It's designed to smooth, finish and deburr whatever hard-to-reach jobs you throw at it.

DURABILITY

Small but mighty, the G1811 holds up to being dropped and pushed to the places it needs to go. Its impact and chemical resistant housing protects against repeated 6 ft. drops, aggressive shop fluids and the wear and tear of REAL WORK.

PERFORMANCE

The G1811 is equipped for both speed and control. It runs at 7,000 RPM to get you through jobs fast. You can change belts at the touch of a button and a variable speed lever lets you maneuver around tight spots as quickly or carefully as the job demands.

COMFORT

Only 2 lbs. even with the battery. This cordless belt sander is so light, it's like working with your bare hands. An ergonomic rubber grip reduces fatigue during extended use and it runs quietly enough that you can skip the ear plugs.
