

TéVera White T3 Multi-Boiler Commercial Tea Brewing Machine (2 Group) - TVT3-2W

Quick Overview

- **Multi-Boiler Power** -12 L steam boiler with dual 1 L brew boilers and heated copper brew groups for stable back-to-back service. -Separate temperature control for steam, brew, and tea extraction to support consistent beverage quality.
- **Repeatable Extraction** -Adjustable temperature and pre-infusion control support different coffee and tea requirements. -Flow replication function helps repeat successful extractions consistently. -Real-time extraction data helps monitor performance and repeat results across multiple baristas.
- **Built for Busy Service** -Multi-barista workflow supports busy service periods without compromising consistency. -Coffee and tea from one station supports flexible menu operation while saving bench space.
- **Easy Daily Operation** -5-inch screen, auto water refill, and one-button backwash simplify daily use and cleaning.
- **Three Configurations, One Platform** -Choose coffee-only, tea-only, or the combined coffee-and-tea build â€” same footprint, same controls, in black or white.
- **Choosing your model:** the T3 Series comes in six models â€” TVET3 for coffee only, TVT3 for tea only, and TVETT3 for both â€” each in black (-2B) or white (-2W), all at the same price.

Description

TéVera White T3 Multi-Boiler Commercial Tea Brewing Machine (2 Group) - TVT3-2W

The TVET, TVT & TVETT Series is a professional dual-purpose machine engineered for cafés that want to serve both high-volume espresso and premium tea extracts without adding extra equipment. With independent multi-boiler heating, real-time extraction data, and adjustable temperature and pre-infusion control, it delivers consistent, repeatable coffee quality even across multiple

baristas.

Built for cafés, restaurants, hotels, bakeries, and high-traffic beverage venues, the T3 Series supports fast service, multi-barista workflow, and menu versatility. Coffee and tea, all from one station.

Key Features

- **Multi-Boiler Power** -12 L steam boiler with dual 1 L brew boilers and heated copper brew groups for stable back-to-back service. -Separate temperature control for steam, brew, and tea extraction to support consistent beverage quality.
- **Repeatable Extraction** -Adjustable temperature and pre-infusion control support different coffee and tea requirements. -Flow replication function helps repeat successful extractions consistently. -Real-time extraction data helps monitor performance and repeat results across multiple baristas.
- **Built for Busy Service** -Multi-barista workflow supports busy service periods without compromising consistency. -Coffee and tea from one station support flexible menu operation while saving bench space.
- **Easy Daily Operation** -5-inch screen, auto water refill, and one-button backwash simplify daily use and cleaning.
- **Three Configurations, One Platform** -Choose coffee-only, tea-only, or the combined coffee-and-tea build — same footprint, same controls, in black or white.

Additional Information
