MAX EB 5HP

2-1/2" x 2" 5HP End Gun Booster for Pivot Irrigation

The MAX EB is a high quality end gun booster pump for center pivot irrigation that is interchangeable with current competitive models. Our significant design improvements provide superior value, durability and performance. The MAX EB features a Baldor TEFC marine duty motor that is epoxy coated for superior rain damage resistance. The cast iron pump end is treated with Durakorr-the industries best wear and corrosion resistance available. Stainless steel impellers and Type 21 Carbon/Ceramic/Viton seals are standard in the MAX EB series of pumps.
