Product Specification Sheet

WNC-BS

Single Bedside Patient Station

WNC-BS Single Bedside Patient Station

The WNC-BS is a wireless bedside patient station designed with a single IEA-standard 1/4" jack for attaching a call cord. Mounted on a single-gang GE Lexan plastic faceplate, the unit features a "Call Placed" indicator light and a "Cancel" button. Placing a call—either by pressing the call cord button or disconnecting the cord from the panel—transmits an alert display to compatible consoles, including the Video Display Console, MV500, or MV200 PLUS Console.

Architects and Engineers Specification

The bedside unit shall be a wireless, single-gang station (model WNC-BS) equipped with a standard 1/4" call cord receptacle, a "Call Placed" LED, and a "Cancel" button. Triggering the call cord switch or unplugging the cord registers an alert on the Video Display Console—showing room details, arrival time, call type, and priority level—while illuminating the local LED indicator and connected hallway lights. New installations utilize a Carlon A52171D deep plastic back box with a single-gang mud ring or equivalent.

Specification

- **Dimensions:**
  - Height: 4-1/2" (114mm)
  - Width: 2-3/4" (69mm)
  - Depth: 2-5/8" (66mm)
  - Weight: 7.2 oz
- **Panel:** Flame-retardant GE Lexan faceplate (UL flame rating 94V-0)
- **Batteries:** Two CR123 Lithium batteries
- **Backbox:** Carlon A52171D deep 4/S plastic back box with single-gang plastic mud ring
- **Surface Mount:** Wiremold 2344 single-gang enclosure (2-3/4" deep)
- **Flush Mount:** Cooper BB10L single-gang B-Line bracket

System Components

- **PC Server:** Video Display Console PC
- **MV500:** 500 Console Master
- **MV200 PLUS**: 200 PLUS Console Master
- **WNC-CC:** Call Cord, 1/4" Plug, 8 Ft. Length

Features

- Simple push-button calling
- Visual "Call Placed" LED indicator
- Call-reset push button
- Automatic call registration upon cord removal
- Console alerts displaying corresponding color indicators along with audio tone or voice
- Integration with corridor lamps, zone lamps, duty stations, wireless LED reader boards, and other staff notification devices (if installed)
